

## Daikin's "United Beyond Cold" Approach Delivers Full Cold Chain Solutions at Chillventa 2024

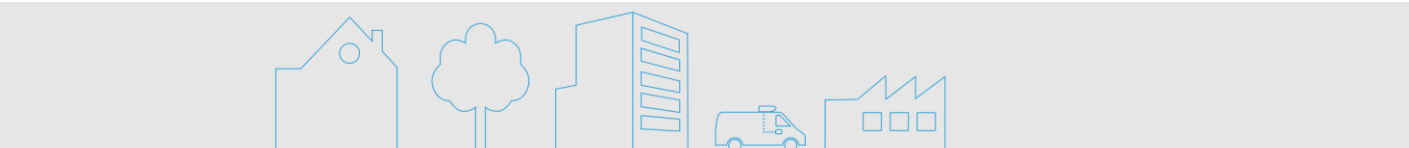

**Brussels, 27, September 2024 – Daikin Europe, a global leader in refrigeration and cold chain solutions, is set to make a significant impact at Chillventa 2024, the premier international trade fair for refrigeration and cold chain. This year, Daikin will not only present a comprehensive suite of cold chain solutions but will also spotlight its strategic vision for the future of refrigerants. With a robust lineup featuring products from its renowned brands—Zanotti, Tewis, Hubbard, and AHT—Daikin continues to solidify its position as a one-stop provider for all cold chain needs, embodying its theme, “United Beyond Cold.”**

At Chillventa 2024, Daikin will unveil several advanced cold chain solutions designed to meet the diverse applications that be found on the market, emphasizing environmental sustainability and energy efficiency.

Regarding HORECA, the priority is the changes created by the F-Gas regulation, which will accelerate the move towards natural refrigerants. We will display our Monoblock range based on R290, including our new Daikin ceiling-mounted

Monoblock LMC with its unique inverter technology, capable of up to 40% more efficiency than a typical ON/OFF model. Moreover, we will unveil our new PS R290 model, the new Zanotti Monoblock wall-mounted model.

For Food Retailers, AHT will launch a groundbreaking plug-in refrigeration & freezing chest unit, utilizing the natural refrigerant R290. This product sets a new standard for plug-in units and will be presented to the public for the first time ever. Additionally, we will display our complete solution offerings for CO2 remote and Semi Plug-In applications by combining the solutions of different brands such as AHT, Daikin, Hubbard, Tewis and Zanotti including products like AHT SPI

pump station and their range of display cabinets, the new Nova58+ from Tewis, the new CO2 Cascade from Hubbard, and Daikin's innovative CO2 Conveni Pack.

Finally, we will focus our attention on the growing Semi-Industrial and Industrial Refrigeration applications like food processing and logistic centres. Tewis will display their Mini Smart Duplex with the new Eco2Smart +, offering the best efficiency in the market. Zanotti will show their prototype unit of the Seasoning Unit with low GWP solutions and, last but not least, the Industrial Monoblock with low GWP solutions of Hubbard.

Throughout the event, Daikin and its cold chain brands will hold a series of presentations at its stand, providing in-depth insights into its latest products and services. During the exhibition, new products will be launched, and our experts will be giving presentations on different topics on Daikin Cold Chain product and solution range. Attendees will also have the opportunity to explore how the innovations can be tailored to their specific needs with Daikin, AHT, Tewis, Zanotti and Hubbard product ranges.

#### DAIKIN ON-BOOTH PRESENTATION AGENDA

##### OCTOBER 8

10:00-10:15	HORECA Solutions
11:00-11:15	SPI Launch
14:00-14:15	Industrial/Semi Industrial Solutions
15:00-15:15	Kigali Launch
16:00-16:15	Daikin Europe Refrigerant Policy

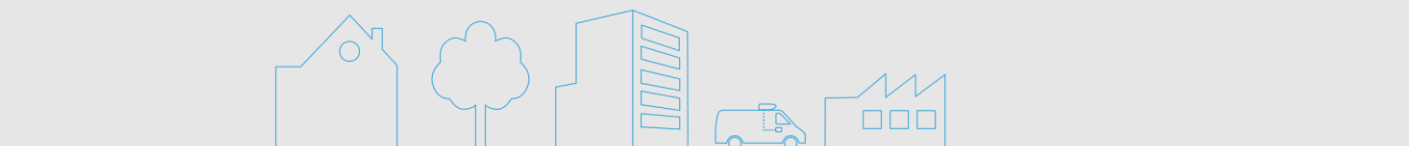

##### OCTOBER 9

10:00-10:15	CO2 System Solution
11:00-11:15	Eco2Smart Plus Launch
14:00-14:15	HORECA Solutions
15:00-15:15	SPI

##### OCTOBER 10

10:00-10:15	Industrial/Semi Industrial Solutions
11:00-11:15	CO2 Systems

Hall 7 / 7-150

## Presentations on Daikin's Refrigerant Strategy

In addition to showcasing these innovative products, Daikin will host a presentation on Specialist Forum with an outlook on how we can address the refrigerant challenges for the Heat pump, Air conditioning and Refrigeration markets in an affordable, safe and future-proof way.

You can join us on the Chillventa Specialist Forum on the 8th of October at 11h00 in Hall 8 / 8-516 and on the Daikin Cold Chain booth on the 8th of October at 16h00 in Hall 7 / 7-150.

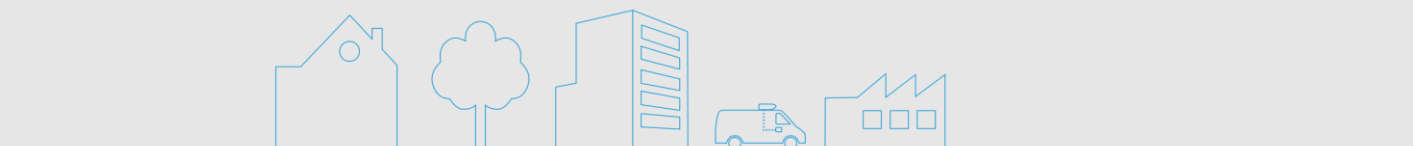

## United Beyond Cold: A Vision for the Future

Reflecting on the overarching theme of “United Beyond Cold,” Olivier Lagrabette, Department Manager Cold Chain at Daikin Europe, commented, *“At Chillventa 2024, we are not just showcasing products; we are highlighting the strength of our holistic approach. ‘United Beyond Cold’ embodies the collaboration of Daikin’s companies—AHT, Zanotti, Tewis, and Hubbard—in delivering comprehensive cold chain solutions and exceptional service. This unified approach ensures we not only meet the diverse needs of our customers with innovative products but also provide unparalleled support and service, driving excellence throughout the cold chain industry.”*

## Join Daikin at Chillventa 2024

Daikin invites attendees to explore its latest products and attend the presentations to gain insight into the company’s future-focused refrigerant strategy. Visit Daikin’s stand at the Booth 7-150 in Hall 7 of at Chillventa (Messe Nuremberg) 2024 from 8th-10th October 2024 to experience firsthand the future of refrigeration technology.

**Daikin Europe will be exhibiting at the Booth 7-150 in Hall 7 of at Chillventa (Messe Nuremberg) 2024 from 8th-10th October 2024.**

### **About Daikin Europe N.V.**

The Daikin Europe group is a leading provider of heating, cooling, ventilation, air purification and refrigeration (HVAC-R) technology in Europe, Middle East, and Africa. Daikin designs, manufactures, and offers customers a broad portfolio of products, maintenance services as well as turnkey solutions for residential, commercial, and industrial purposes. To date, Daikin Europe has over 13,800 employees across more than 59 subsidiaries. It has 14 manufacturing sites in Belgium, the Czech Republic, Germany, Italy, Spain, Austria, the United Kingdom, Turkey, the United Arab Emirates, and the Kingdom of Saudi Arabia. Headquartered in Ostend (Belgium) for over 50 years, the Daikin Europe group is a subsidiary of the global group Daikin Industries.

### **About Daikin Industries Ltd.**

Daikin Industries (DIL) is a worldwide leader in heat pump, air conditioning, and air filtration technology with more than 98,000 employees. Founded in Osaka in 1924, it is the only manufacturer in the world that develops and manufactures heating, ventilation, air conditioning, and refrigeration equipment, as well as compressors and refrigerants in-house. Daikin was named one of the world's top 100 most innovative companies by Clarivate (UK) and LexisNexis (USA), recognized for its leadership in technology research and intellectual property patents. For its fiscal year 2023 Daikin reported a record sales result of € 28 billion sales (1 April 2023 – 31 March 2024).
